And when they become too bearish, then prices tend to rise.

was 2.9 percent lower compared to the previous year.

with 100 outlets featuring 3 items has an activity index of 300.

National Summary of Advertised Prices for Beef at Major Retail Supermarket Outlets

This week in beef retail the Feature Rate increased by 3.6 percent and the Activity Index increased by 4.7 percent. Compared to last week, items from the brisket, chuck, sirloin, other/misc., ground, and variety meat sections showed an increase in ad space while items from the round, and deli sections showed a decrease. Rib items had the largest change this week, sharply decreasing in ad space with a decrease in advertised bone-in ribeye roasts being the largest contributing factor. Items from the loin and carcass

Activity Index: A measure of the absolute frequency of feature activity equal to the total number of stores for each advertised item, e.g., a retailer

Feature Rate: The amount of sampled stores advertising any reported item during the current week, expressed as a 'percentage of the total

Total red meat production under Federal inspection for the week ending Saturday, December 6th was estimated at 1125.6 million lbs. according to the USDA Marketing Service. This was 25.3 percent higher than a week ago and 2.3 percent higher than a year ago. Cumulative meat production for the year to date

The theory behind the "Bullish/Bearish Consensus" indicator is when the public reaches a consensus,

• When the public reaches a bullish extreme, i.e., a great majority thinks prices will keep rising, then

So when Public Opinion moves above the **red dotted line** in the chart, it means that compared to other readings over the past year, you're seeing excessive optimism. You also want to look at the absolute level of Opinion, too - if it's at 90%, then there's no question we're seeing an historic level of bullish opinion. Watch for readings above 80% (or especially 90%) to spot those dangerous times when the

Conversely, when Public Opinion moves below the **green dotted line**, then the public is **excessively** pessimistic about the commodity's prospects for further gains compared to their opinion over the past year. Looking for absolute readings under 20% (or especially 10%) often indicates an upturn in the

2024

Over the past 5 years, an average of around 12% of U.S. beef production has been exported, making exports an extremely important factor affecting beef and cattle prices. A strong dollar depresses export

Jul 25

Major U.S. stock indexes finished the first week of December higher, adding to the prior week's gains, amid investor hopes for an interest rate cut from the Federal Reserve at its upcoming meeting. The technology-heavy Nasdaq Composite led the major indexes higher, advancing 0.91%, followed by the small-cap Russell 2000 Index, which rose 0.84%. The S&P 500 Index lagged but still posted a modest gain for the week. T. Rowe Price traders also noted that trading volumes were relatively light throughout

Activity in the manufacturing sector contracted for the ninth consecutive month in November, according to data from the Institute for Supply Management (ISM). On Monday, the ISM reported that its manufacturing Purchasing Managers' Index (PMI) declined to 48.2%, down from 48.7% in October (readings below 50%) indicate contraction, while readings above 50% signal expansion). Pullbacks in supplier deliveries, new orders, and employment drove the overall decline, while input prices increased for the 14th consecutive

On the other hand, November services activity expanded at a slightly faster pace than in October, with the services PMI rising 0.2 percentage points to 52.6%, the highest in nine months. The prices index saw a 4.6-percentage-point drop to 65.4%, the lowest reading since April, indicating prices paid by services

Canadian 90-Day Percent of Average Precipitation:

Yellowknife

Regina

Prepared by Agriculture and Agri-Food Canada's Science and Technology Branch. Data provided through partnership with Environment Canada Natural Resources Canada, Provincial and private agencies.

Produced using near real-time data that has undergone some quality control. The accuracy of this map varies due to data availability and potential data errors

The NWS 7-day quantitative precipitation forecast calls for the heaviest rainfall (2 to 5 inches) to be along the central Gulf Coast, including southern Louisiana, southern Mississippi, southern Alabama, and the western Florida Panhandle, while 1 to 4 inches is expected in southern Georgia and areas of coastal South Carolina. The southern extent of the Mid-Atlantic coast is forecast to receive 1 to 3 inches, while New England is expected to have totals less than 1 inch. In the Pacific Northwest, 2 to 7+ inches (liquid) of precipitation is expected across western portions of Washington and Oregon, while the Northern Rockies —including northern Idaho, western Montana, and western Wyoming—are forecast to receive liquid totals ranging from 1 to 3 inches. These values represent liquid precipitation and may fall as rain or snow; actual snowfall amounts will vary depending on temperature and snow-to-liquid ratios. Meanwhile, much of the Intermountain West, Desert Southwest, and the central and southern Great Basin is expected to remain mostly dry, although northern portions of Utah and Colorado are forecasted to observe totals ranging from 0.25 to 2.0 inches. Across the Plains and Midwest, precipitation totals are expected to be less than 0.5

The 6–10-day temperature outlook (valid December 9 –13, 2025) calls for above-normal temperatures across the western U.S., much of the Plains, and Texas, with the highest probabilities centered over the Far West and Great Basin. Below-normal temperatures are favored across the eastern United States, with the highest probabilities in the Northeast and portions of the northern Mid-Atlantic and Great Lakes. Nearnormal temperatures are expected across a narrow swath extending from the Lower Mississippi Valley through the eastern portions of the Dakotas. In terms of precipitation, the 6–10-day outlook calls for belownormal precipitation across the southern half of the continental United States, including California, Great

Basin, southern half of the Intermountain West, South, and much of the Southeast. Above-normal precipitation is forecasted for much of the northern tier of the continental U.S., including the Pacific Northwest, Northern Plains, Upper Midwest, and the Northeast. Near-normal precipitation is expected

A limited number of comparable offerings from last week a trend will not be given for steers or heifers. Demand was good with active internet bidding for the SPECIAL CALF & FEEDER AUCTION-INCLUDING

Compared to last week: steer calves from 400 lbs to 499 lbs were steady to 2.00 higher, steers from 500 lbs to 549 lbs were 8.00 to 10.00 lower, steers from 550 lbs to 599 lbs were 2.00 to 4.00 higher, steers from 600 lbs to 699 lbs were 10.00 to 20.00 lower, heifer calves from 450 lbs to 499 lbs were 2.00 to 4.00 higher, heifers from 500 lbs to 549 lbs were 10.00 to 15.00 lower, heifers from 550 lbs to 599 lbs were 10.00 to 12.00 higher, heifers from 600 lbs to 649 lbs were steady. No caparisons on yearlings due to

Compared to last week steer calves 450-700 lbs sold steady to 10.00 lower and heifer calves 400-600 lbs

sold 10.00 to 30.00 lower. Demand was moderate to good from the buyers in the crowd with internet activity noticed. A shorter consignment sheet was made of mostly bawling calves that had received fall

Compared to last week; slaughter and feeder cows traded 2.00 to 4.00 lower. Slaughter bulls traded

mostly steady. Another large run for the day with only a hand full of buyers on the seats. Heiferettes also

Special note there will be no sale on 11-28-25 due to Thanksgiving holiday. Compared to last week: Steer

Due to the New World screwworm, the border has been closed for livestock imports until further notice.

Compared to last week, a very light offering of feeders were not well tested with the bulk of the supply unweaned bulls or unweaned heifers and selling in small packages and singles. Slaughter steers and

heifers on a light test sold 3.00-5.00 lower with a nice offering of slaughter cows trading firm to 3.00 higher.

Compared to last week Feeder Steers 10.00 to 12.00 lower on a light test; Feeder Heifers 30.00 to 35.00

Slaughter cattle were steady this week compared to last week. Feeder cattle were 8.00 to 10.00 higher this week compared to last week. Demand was good; market activity and buyer interest were active.

Compared to last week: Steer and heifer calves sold with much higher undertones compared to last week's very limited test. The only good comparison of yearling steers were those 900-950 lbs 40.00 higher, 1050-1100 lbs 7.00 higher. Yearling feeder heifers 700 lbs 40.00 higher, other weights not well compared. Very

Compared to last week's light test: Feeder steers 8.00-15.00 higher. Feeder heifers 15.00-25.00 higher. Steer and heifer calves 20.00-30.00 higher, instance to 40.00 higher. Demand good following a pre and post Thanksgving move higher in the cattle complex at the CME. Though futures continue to trade some

Compared to last week: Steers and Heifers 25:00 to 30:00 higher with instances up to 40:00 higher.

holiday week, quality average to mostly attractive with several large groups. Cattle sold higher with

Compared to last weeks sale; Small sale numbers after Thanksgiving. Steer calves 500-550 lbs sold 17.00-22.00 higher and heifer calves 450-500 lbs were 20.00 higher with 500-600 lb being 30.00-52.00

Compared to last week feeders steers sold 5.00-25.00 higher. Feeder heifers sold 10.00-30.00 higher. Supply was moderate with very good demand. The largest lot of the day was 286 head of steers weighing 941 lbs. which sold for 314.00/cwt.. Close behind was 261 head of heifers weighing 793 lbs. which sold for

Compared to last week, feeder steers weighing 450-700 lbs and heifers weighing 400-650 lbs sold mostly 10.00-25.00 higher with 400-450 lb and 600-650 lb steers tacking on even more sharper higher advances in spots, with a pot load of steers weighing 891 lbs selling 9.00-12.00 higher than last weeks pot load of

Compared to last week, Feeder Steers 8.00-15.00 higher; Feeder Bulls 5.00-15.00 higher with instances of 20.00 higher; Feeder Heifers 12.00-20.00 higher with instances of 25.00 higher; Slaughter Cows steady to

No comparisons made this week due to no sale last week. Moderate offerings of plain to average quality

Compared to last week: Feeder steers and feeder heifers under 600 lbs sold sharply higher. Feeder steers and heifers over 600 lbs sold 10.00 to 15.00 higher. Slaughter cows sold 5.00 to 8.00 higher. Slaughter

Compared to last week's sale, a lighter run of cattle in all classes. Feeder Steers 500-700 lbs traded 30.00-45.00 higher with good demand on the larger groups. Feeder Heifers 500-700 lbs sold mostly 40.00 higher

with some strong sets of F1 Baldy's setting the price. Slaughter Cows returning to feed were 1.00-2.00

Trade activity and demand was good. Feeder steers sold 2.00 to 5.00 higher with instances of sharply higher across all weight classes. Feeder heifers sold sharply higher across all weight classes. Breaker slaughter cows of average dressing sold 3.00 higher. Boner and lean cows of average dressing sold 3.00

Compared to last sale: In a light comparison, feeder steer 10.00-15.00 lower conservatively. Feeder

heifers 2.00 higher on better quality and condition. Steer and heifer calves steady to 5.00 lower. Demand

Compared to last sale two weeks ago: Steer and heifer calves 5.00-15.00 higher with spots up to 30.00

Compared to last week: Feeder steers weighing between 600 to 700 pounds traded mostly 20.00 higher. Not enough comparable sales on feeder heifers or heavier weight steers for a market trend but a higher undertone was noted. Steer calves traded mostly 20.00 higher and heifers traded sharply higher with the largest advances on 500-600 pound heifers. Trading activity was active on good buyer demand. Slaughter

Compared to last week, feeder steers and heifers sold 15.00-25.00 higher. Steer and heifer calves sold 30.00-40.00 higher with spots 50.00 higher. Demand was very good on a moderate supply. ORS held their December Special Pre-Vac Sale during their weekly Feeder Sale on Tuesday. Quality was above average,

Compared to two weeks ago: Slaughter cows and bulls sold 1.00 to 2.00 higher. Replacement cows sold

higher. Demand very good. Quality mostly average. Weaned calves had average to full condition.

similar weight with the other pot loads of 800-935 lb steers trading with a higher undertone.

Slaughter cows and bulls remained steady with instances of 2:00 higher. Demand was good following the

sections remained mostly steady.

Calhoun Stockyard - Calhoun, GA This Week: 213 Last Reported: 428 Last Year: 454 No trends available due to Thanksgiving holiday last week. Blue Grass Stockyards - Lexington, KY This Week: 733 Last Reported: 98 Last Year: 1,369 Compared to last Tuesday: No trends due to Thanksgiving week having low receipts. However, the feeder market appeared sharply stronger in spots with a good supply and good demand for long weaned feeders and value added groups and packages. Slaughter cows and bulls appeared stronger as well with a limited supply and good demand. Producers Livestock Auction - Salina, UT This Week: 1,328 Last Reported: 1,090
Last Year: 2,169 Compared to last week, feeder cattle sold sharply higher on calves and yearlings. Slaughter cows sold 1.00 to 3.00 higher on lean and boning cattle, with breaker cattle selling steady to 3.00 lower. Slaughter bulls sold too light to trend. Trade was active with good demand and a moderate supply. Wednesday Auctions: Hub City Livestock Auction - Aberdeen SD This Week: 3,371 Last Reported: 4,605 Last Year: 3,790 No sale last week due to Thanksgiving, compared to two weeks ago: steers calves 450 to 499 lbs and 550 to 649 lbs 10.00 to 18.00 higher, 500 to 549 lbs and 650 to 699 lbs mostly steady, yearling steers 1000 to 1049 lbs 10.00 higher. Heifer calves 450 to 549 lbs 20.00 to 25.00 higher, yearling heifers not well compared. Good to very good demand for yearlings and calves. Bassett Livestock Auction - Bassett NE This Week: 3,210 Last Reported: 2,565 Last Year: 3,450 Compared with two weeks ago, 700 to 800 lbs steers traded 13.00 to 21.00 higher. Not enough comparable offerings for heifers a trend will not be given. Demand was very good with several buyers and active internet bidding.
Huss Platte Valley Auction - Kearney NE This Week: 2,624 Last Reported: 4,020 Last Year: 4,284 Compared to two weeks ago steers under 600 lbs sold steady to 25.00 higher and steers over 600 lbs sold steady to 12.00 higher, Heifers under 600 lbs sold 20.00 to 40.00 higher and heifers over 600 lbs sold steady to 15.00 higher. Demand was good to very good from the buyers in the crowd. OKC West - El Reno OK This Week: 4,527 Last Reported: 7,652 Last Year: 10,270 Compared to last sale two weeks ago: Feeder steers over 750lbs 5.00-10.00 higher, under 750lbs steady. Feeder heifers unevenly steady. Heifers 600-700lbs 7.00-10.00 higher. Today's offering included several nice drafts of 9 weight steers that drew aggressive bidding from multiple buyers, with the 900-950lb steers selling 20.00 higher. Steer quality was better than heifer quality. Clovis Livestock Auction - Clovis, NM This Week: 2,136 Last Reported: 3,204 Last Year: 3,125
Compared to the sale before Thanksgiving; Steer calves 300-350 lbs sold steady and 350-600 lbs were 11.00-35.00 higher while steer yearlings 600-700 lbs sold 6.00-15.00 higher. Heifer calves 400-600 lbs sold 21.00-34.00 higher and feeder heifers 600-750 lbs were 35.00-50.00 higher. Trade was very active on a better market with similar numbers. Excellent buyer attendance.
